Bids can be placed on our website (www.sarc.auction). Our online bidding system is provided by iCollector.com.

You can also place bids on their website and it will sync with any bids you place on our website. If you plan to only bid live during the auction, please be sure to register a few days in advance of the auction in the event that you have difficulties with the registration process. This will also allow us time to process your registration.

Visit the link below to register, and visit the same link to bid before the sale and live online on the days of the auction.

WWW.SARC.AUCTION

(There is no additional fee to bid online).

If you are unable to do so or if you would like to place bids that are not executed until the sale begins (proxy bids) you may send bids to us using one of the methods listed below.

IMPORTANT NOTE: If you send bids to us by one of the methods listed below they will be treated as proxy floor bids. If another person places a pre-sale internet bid on our website, that internet bid will be treated as the first received, regardless of the time of receipt. FEATURED COLLECTIONS

The Kenneth A. Bovenkamp Collection of Ottoman Coins

Kenneth A. Bovenkamp (1953-2025) was born in Washington state and raised on a small farm in Lynden, WA where he first started collecting coins as a child. He was a passionate collector of many things, but it was coins and their history that truly captured his interest and attention. Each piece told a story, and for Ken, history lived within the metal itself.

In 1974, Ken joined the United States Air Force, a chapter of life that would prove pivotal to his numismatic journey. During his first tour of duty in Turkey, he found himself surrounded by the deep and layered history of the region, from the ancient civilizations of Anatolia to the grandeur of the Ottoman and Byzantine Empires, to the crossroads of ancient trade. It was there that his love of history and his growing interest in coins converged into a lifelong passion.

Over nearly 50 years, Ken built an impressive collection that reflected both his historical curiosity and scholarly dedication. His vast collection was mentally cataloged, and he could recall the historical, political, and cultural significance of every coin he owned with remarkable detail, even for pieces that he did not have but that he hoped to one day acquire. His collection was more than a hobby, it was a living timeline, a way of connecting with people and civilizations across centuries.

Ken's passion extended far beyond his own collection. In retirement, he became a familiar face at local coin shows where he eagerly shared his knowledge with others. Many remember him as both a mentor and a friend, a collector whose enthusiasm inspired newcomers. He delighted in conversation, whether at a show table or with a stranger at the grocery store checkout line, Ken loved nothing more than sharing the tale of his latest find and the historical importance behind it.

Ken's family now honors his memory by bringing his lifetime collection to auction, hoping that each coin will find its way to a new steward, someone who shares his deep appreciation for their beauty, meaning, and place in history. The coins offered in this sale represent only the initial part of the vast quantity and array of items that will be coming to auction from this collection throughout 2026 and likely into 2027.

The Dr. Dirk L er Collection of Chinese Coins

Early Pre-Reform

132. **ARAB-SASANIAN: Yazdigerd type**, 652-660, AR drachm (3.27g), ML (Marw), year 20 (of Yazdigerd), A-2, Malek-826, in the name of Yazdigerd and with Arabic *jayyid* ("good") in ObQ2, instead of *bism Allah*, with Hunnic countermark #3 in ObQ1 and the usual Hunnic fineness testing scratch in the reverse margin; clipped down to one of the Hunnic standard, lovely VF, RRR \$1,000 - 1,500

The only other example we could find in auction records was the piece sold in our Auction 51, lot 45.

133. **ARAB-SASANIAN: 'Abd al-Rahman b. Zayd**, ca. 672-674, AR drachm (3.02g), NAL (Narmashir), AH54, A-10, Malek-913A, standard type with two countermarks in the obverse margin, #3 (forepart of lion), #59 (Bactrian word FOR); clipped down to the post-reform Umayyad standard, VF, RR \$150 - 200

134. **ARAB-SASANIAN: 'Ubayd Allah b. Ziyad**, 673-683, AR drachm (3.29g), AYLAN (Hulwan), AH60, A-12A, Malek-134, with Pahlavi ZYAN ("deities") in the 1st quarter of the obverse margin, XF, RR \$150 - 250

135. **ARAB-SASANIAN: al-Harith b. 'Abd Allah**, 683-684, AR drachm (2.98g), DShT (Dasht Mishan), AH65, A-13, Malek—, with a peculiar symbol or word (probably Pahlavi) in ObQ3, still undeciphered; clipped down to the post-reform standard, but still very attractive, bold VF, **RRR** \$2,000 - 3,000

The only example on CoinArchives of this mint for al-Harith was sold in our Auction 17, lot 76 (in 2013), heavily clipped and lower grade. Malek reported only two more examples in museums.

136. **ARAB-SASANIAN: Mu'awiya**, 661-680, AR drachm (3.95g), DAP (Fasâ), AH43 (frozen), A-14, first Umayyad caliph, with his caliphal title AMYL-Y WLWYSNYKAN ("commander of the believers") after his name in the obverse field, struck circa AH52-54; slightly cleaned, mostly on the reverse margin, XF \$200 - 300

DAP (Fasâ) is much rarer than DA (Darabjird).

137. **ARAB-SASANIAN: Salm. b. Ziyad**, ca. 680-685, AR drachm (3.02g), MLW (Marw), blundered date, A-18, Hunnic imitation, struck to a local weight much lighter than the normal Arab-Sasanian weight for Salm b. Ziyad (about 4.1g), double-struck reverse, VF-XF \$150 - 200

Only The Second Known Example of This Governor!

138. **ARAB-SASANIAN: 'Abd al-Malik b. Abi Shay(kh)**, fl. 692, AR drachm (2.68g), APRShT (Abarshahr, = Nishapur), AH72, A-29, clipped down to slightly below the post-reform Umayyad standard, clear name, mint & date, stylistically identical to the first known example (sold in our Auction 17, lot 104, back in 2013, now Zeno-128271) but struck from a different pair of dies, VF, **RRRR** \$15,000 - 20,000

This is the second known example of this governor, struck during the chaotic years in the early AH70s, when the collapse of the Zubayrid opposition and the petty rivalry in Khorasan and Sijistan after the brief Hephthalite invasions simultaneously troubled the eastern regions of the caliphate. The named governor is perhaps 'Abd al-Malik b. Abi Shaykh al-Qurayshi, who was active in the Kish battle in Central Asia in AH80.

139. **ARAB-SASANIAN: 'Abd Allah b. Umayya**, fl. 695-697, AR drachm (3.96g), SK (Sijistan), AH75, A-30, with Pahlavi MY added in ObQ1 and Arabic *al-'izzatu lillah* ("the glory is God's") in ObQ3, bold mint and date in Pahlavi on the reverse, partial flan crack, some minor adhesions and removal scratches on both sides, attractive bold strike, VF \$200 - 250

Laqit**, 702, AR drachm (3.85g), GLM-KLMAN ("warm kirman"), AH83, A-39, Malek-599, obverse margin bism Allah ShYLYWY // 'amr lillah, standard reverse with full bold mint & date, extremely rare mint for this ruler (only KLMAN-LAM for Narmashir is relatively available for this ruler), lovely VF, **RR** \$300 - 400

The Pahlavi word PYLWC, "victorious", appears before the governor's name, and the Arabic slogan 'umr lillah, "eternity belongs to God" in ObQ3. The mint name means "warm Kirman", thus likely in the lower elevation region in southern Kirman province, known for its blistering summer heat.

143. **ARAB-SASANIAN: 'Umara b. Tamim**, 703-704, AR drachm (3.85g), SK (Sijistan), AH84 (crudely engraved), A-C40, standard type, with *bism Allah / rabbi* in the obverse margin, somewhat blundered date on the reverse, XF, **R** \$150 - 250

167. **UMAYYAD: AE fals** (3.32g), al-Madina Ma'din Amir al-Mu'minin, ND (ca. 735-745), A-A183, once considered al-Madina, now in Saudi Arabia, the mint is now assigned to al-Rusafa in Syria, the ancient Sergiopolis, south of al-Raqqa in Syria, confirmed by coin finds in that region, but never in Arabia; an important Umayyad palace was erected at that site, bold VF, R \$150 - 200

168. **UMAYYAD: AE fals** (3.25g), Qaysariya (Caesarea), ND, A-A184, SNAT-199, Bone-1, excellent strike, strong VF, RRR \$800 - 1,000

The mint name is written "bi-qasriya" ("in Caesarea"), as was normal for that mint on Umayyad copper coins.

169. **UMAYYAD: AE fals** (5.08g), al-Rusafa, ND, A-185S, al-Rusafa was an important Umayyad city, home to one of the major palaces of the caliphate, formerly the Byzantine city of Sergiopolis, now an archaeological site a short distance south of al-Raqqa, F-VF, RRR \$150 - 200

171. **UMAYYAD:** AE fals (1.44g), al-Mansura, AH122, A-A204, kalima divided between obverse and reverse, with the mint and date in the reverse margin, surface porosity, VG, ex Dr. Dirk Löer Collection, ex Morton & Eden Auction 103, Lot 18 \$150 - 250

The ruins of al-Mansura are adjacent to the modern village of Brahminabad, about 8 miles SE of Shahdadpur, 43 miles NE of Hyderabad, Pakistan.

172. **UMAYYAD:** AE fals (2.28g), Marw, AH112, A-B204.1, Zeno-351941 (this piece), mint, date, and denomination "sixty to the dirham" on the obverse // the governor al-Junayd b. 'Abd al-Rahman and the phrase *ja'iz bi-kull shay* ("current for all things") on the reverse, date slightly weak but confirmed by lot 187 sold in our Auction 44; some light porosity, bold VF, **RRR** \$150 - 200

173. **UMAYYAD:** AE fals (1.40g), Qandabil, AH117, A-Q204, kalima divided between obverse & reverse, the mint/date formula in the reverse margin; third known Islamic coin from the important trade town of Qandabil, now identified with Gandawah in the Baluchistan province of Pakistan, south of Sibi and east of Kalat; porous surfaces, especial on the reverse; full bold mint & date, Fine, **RRR** \$150 - 250

Qandabil was north of the port of al-Daybul along the trade route from the port en route to Iran. The style, calligraphy, and arrangement is identical to the copper fulus of al-Daybul, which are also dated AH117 and it is conceivable that the dies for both mints were engraved by the same die-cutter.

175. **UMAYYAD:** AE fals (1.85g), al-Mahfuza, ND, A-E205, obverse legend *duriba hadha / al-fals bi'a- / -l-mahfuza*, traditional reverse *muhammad / rasul / Allah*, usual light porosity, Fine, **RRR** \$150 - 200

Al-Mahfuza was founded by al-Hakam b. 'Awana about AH112, the second Umayyad governor of Sind. After a few years, al-Hakam replaced al-Mahfuza with his second foundation, the town of al-Mansura, across the river from al-Mahfuza, which became the capital of Sind for more than 300 years.

176. **UMAYYAD:** AE fals (1.57g), NM, ND, A-205U, Zeno-336983 (this piece), in the name of al-Junayd (b. This type is always without mint & date, and was likely struck in the eastern regions under al-Junayd, presumably somewhere in Tukharistan or Badakhshan.

177. **UMAYYAD:** AE "dinar", copper imitation of a dinar dated AH77, otherwise typical of other contemporary copper imitations with later Umayyad dated; some porosity both sides, F-VF, **RRR** \$800 - 1,000

179. **ABBASID:** ca. 751-755, glass weight (4.72g), al-Basra, A-338U, full legend *'amara al-a- / -mir sulayman / bi'l-basra / waf*, probably Sulayman b. 'Ali, who was governor of al-Basra, Bahrayn and Oman AH133-137', uniface, XF, **RRRR**, ex Ismail al-Imam Collection \$600 - 800

The calligraphic style is correct for the early Abbasid period, and the extension of Sulayman's governorship into Bahrayn and 'Uman strongly suggests that this was the Sulayman on this weight.

Islamic Coins

271. **IKHSHIDID: Muhammad**, 935-946, AR dirham (2.89g), Misr, AH334, A-675, ruler cited only as *al-ikhshid*, also citing the caliph al-Muti' during the first year of his reign, superb strike, comparable to the gold dinars of Misr at this period, from dies clearly marked for the dirham, excellent strike, XF, **RRR** \$200 - 300

This is 3rd known example of this type, all struck from the same pair of dies. The other two were sold in our Auctions 38, lot 241, and 47. lot 222.

272. **IKHSHIDID: Muhammad**, 935-946, AR donative dirham (2.85g), Misr, AH324, A-B676 (18mm) with his full name *muhammad bin tughj* on the reverse and without the normal title *al-ikhshid*, known only on the donative coins, VF, **RRR** \$500 - 700

273. **IKHSHIDID: Muhammad**, 935-946, glass weight (2.47g), NM, ND, A-W676, inscribed just *muhammad / bin tughj* with a 5-point star below, dark blue, slightly translucent; unpublished and presumed unique, VF, *ex Ismail al-Imam Collection* \$500 - 800

There are no Ikhshidid glass weights or jitals on CoinArchives or Zeno, and no mention of anything made of glass in Bacharach's work on the Ikhshidid coinage.

274. **IKHSHIDID: Abu'l-Qasim**, 946-961, AR dirham (2.45g), Tabariya, AH353, A-677, minimal weakness for this mint (this mint usually comes struck much weaker), clear mint & date, XF, **RR** \$150 - 200

275. **FATIMID: al-Qa'im**, 934-946, AR 1/2 dirham (1.28g), al-Mahdiya, AH322, A-693, Nicol—, a few edge chips, one repaired, but the important legends are boldly clear, including full mint & date; unpublished date and believed to be unique, VF, **RRR** \$800 - 1,000

276. **FATIMID: al-Qa'im**, 934-946, AR 1/2 dirham (0.95g), mint off (style of al-Mahdiya), AH327, A-693, Nicol-172 (type B1, only 1 known to Nicol), obverse flan defect, but overall a decent example, VF, **RR** \$300 - 400

The last letter of the mint, almost certainly "h" would confirm the mint of al-Mahdiya.

277. **FATIMID: Abu Yazid Makhlad**, 945-946, AV dinar (4.16g), al-Qayrawan, AH334, A-A694, Nicol-202, with the additional phrases *rabbunā Allah* and the Kharijite *la hukma illa lillah* above the obverse and *al-izzatu lillah* above the reverse, plus the phrase *al-haqq al-mubin // khatim al-nabiyyin* divided below the obverse and reverse; lovely example; weak digit of the date, but confirmed by other examples on CoinArchives; cleaned, NGC graded AU details \$2,500 - 3,500

According to N.D. Nicol, "Abu Yazid was born about 270/883 and became a Kharijite leader of the Ibadi al-Nukkar sect. He began anti-government agitation during the reign of al-Mahdi, but it was in the final years of the caliphate of al-Qa'im that he began the revolt which almost destroyed the Fatimid regime in its infancy." This took place in AH333-334 (945-946), but the next Fatimid caliph al-Mansur rapidly defeated and captured Abu Yazid, who died in the first month of AH336.

278. **FATIMID: al-Mansur**, 946-953, AR 1/4 dirham (0.92g), MM, DM, A-696H, the Imam cited with his personal name Isma'il and his kunya Abu'l-Tahir, noted only on issues of the Fès mint, VF, **RRR** \$150 - 200

The weight is too heavy for the normal 1/4 dirham, and this piece might be a 1/3 dirham. It does not appear to have been clipped.

279. **FATIMID: al-Mansur**, 946-953, AR 1/4 dirham (0.68g), ND, A-696I, style similar to the half dirham of al-Mansur, as at the mint of Fès, but no mint name visible on this piece; also citing unknown governor Ahmad b. 'Isa; with three-flower ornament below the legends on each side; some weakness of strike, VF, **RRRR** \$700 - 900

It is likely that Ahmad b. 'Isa was the official of one of the Berber tribes in what is now Morocco and Algeria, though I have not been able to find any reference to that name.

280. **FATIMID: al-Mu'izz**, 953-975, AV dinar (4.12g), al-Mansuriya, AH359, A-697, Nicol-416, VF \$550 - 600

281. **FATIMID: al-Mu'izz**, 953-975, AR 1/4 dinar (1.03g), al-Mansuriya, AH350, A-698, Nicol-404 (only 2 pieces cited), well-centered strike, without any weakness, VF-XF, **RR** \$300 - 400

282. **FATIMID: al-Mu'izz**, 953-975, AR broad dirham (1.87g), Sur, DM, A-W699, the first known specimen of this type for the mint of Sur (Tyre), showing the month name Jumada after the mint name, but the date off flan; some very light porosity; unpublished and unique, F-VF, **RRRR** \$1,500 - 2,000

283. **FATIMID: al-Mu'izz**, 953-975, AR 1/2 dirham (1.48g), al-Mansuriya, AH343, A-699, Nicol-436, clear mint & date, about 10% flat strike, VF \$300 - 400

284. **FATIMID: al-Mu'izz**, 953-975, AR 1/2 dirham (1.41g), al-Mansuriya, AH344, A-699, Nicol-437, clear mint & date, rare date, VF \$150 - 200

285. **FATIMID: al-Mu'izz**, 953-975, AR 1/2 dirham (1.28g), al-Mansuriya, AH353, A-699, Nicol-447, bold mint & date, VF-XF \$150 - 200

286. **FATIMID: al-Mu'izz**, 953-975, AR 1/2 dirham (1.21g), al-Mahdiya, AH353, A-699, Nicol-487, fully legible mint & date, rare date, VF, R \$200 - 250

287. **FATIMID: al-Mu'izz**, 953-975, AR 1/2 dirham (1.28g), al-Mahdiya, AH354, A-699, Nicol-488, fully legible mint & date, scarce date, F-VF, R \$200 - 250

288. **FATIMID: al-Mu'izz**, 953-975, AR 1/2 dirham (1.36g), al-Mansuriya, AH356, A-699, Nicol-450, bold mint & date, strong VF \$150 - 200

289. **FATIMID: al-Mu'izz**, 953-975, AR 1/2 dirham (1.25g), al-Mahdiya, AH358, A-699, Nicol-492, excellent strike, with full legends on both sides, bold VF \$150 - 200

290. **FATIMID: al-Mu'izz**, 953-975, AR 1/2 dirham (1.26g), al-Mahdiya, AH360, A-699, Nicol-494, VF \$150 - 200

291. **FATIMID: al-Mu'izz**, 953-975, AR 1/2 dirham (1.29g), al-Mansuriya, AH360, A-699, Nicol-454, choice VF \$150 - 200

292. **FATIMID: al-Mu'izz**, 953-975, AR 1/2 dirham (1.25g), al-Mansuriya, AH362, A-699, Nicol-456, clear mint & date, full strike, rare date, VF \$150 - 200

293. **FATIMID: al-Mu'izz**, 953-975, AR 1/2 dirham (1.31g), al-Mansuriya, AH363, A-699, Nicol-457 (only 2 known to Nicol), clear mint & date, full strike, better date, VF \$150 - 200

294. **FATIMID: al-Mu'izz**, 953-975, AR 1/2 dirham (1.25g), Misr, AH(3)63, A-699, Nicol-373 (only 1 known, in a museum collection), about 15% flat strike, but the mint & date are quite legible, F-VF, RRR \$300 - 400

295. **FATIMID: al-Mu'izz**, 953-975, AR 1/2 dirham (1.38g), NM, DM, A-699-var, Nicol—, also citing unknown governor Ahmad b. 'Isa below the reverse field; mint name off flan, but the style is clearly North African during the chaotic period of armed conflict between the supporters of the Umayyads of Spain and the Fatimids of Ifriqiya, holed for suspension, Fine, RRR \$300 - 400

These conflicts involved the various Berber tribes, who frequently switched their alignments between the Umayyads and Fatimids. It is likely that Ahmad b. 'Isa was the official of one of the Berber tribes in what is now Morocco and Algeria, though I have not been able to find any reference to that name. The overall style is quite similar to the dirham of the Banu Ifran ruler Ya'la' b. Ahmad (A-457M).

296. **FATIMID: al-'Aziz**, 975-996, AV dinar (4.19g), Filastin, AH376, A-703, Nicol-678, nice strike, VF-XF \$800 - 1,000

297. **FATIMID: al-'Aziz**, 975-996, AV dinar (4.15g), Tarabulus (Tripoli), AH377, A-703, Nicol-643A (only 1 known to Nicol), very rare date for a scarce mint during this reign, nice strike, VF \$650 - 800

298. **FATIMID: al-'Aziz**, 975-996, AV dinar (3.68g), al-Mansuriya, AH382, A-703, Nicol-763, mint mostly off flan, but very likely, common date; somewhat wavy surfaces, Fine \$450 - 500

299. **FATIMID: al-'Aziz**, 975-996, AV dinar (3.82g), al-Mahdiya, AH386, A-703, Nicol-821, VF \$500 - 600

300. **FATIMID: al-'Aziz**, 975-996, AV 1/4 dinar (1.03g), al-Mansuriya, AH38x, A-704, a superb strike and a highly lustrous example, NGC graded MS64 \$500 - 600

The single finest graded example (Top Pop) on the NGC population report.

301. **FATIMID: al-'Aziz**, 975-996, AR narrow dirham (2.56g), al-Mansuriya, AH366, A-Y705, 22.5 mm; local North African version of the full dirham, struck with narrow dies with short letters in all the text, VF, RRRR \$600 - 800

The only other example of this type was struck at Atrabulus in Libya, DM, sold in our Auction 44, lot 1880. The North African examples are narrow and with short letters, whereas the Syrian version, struck at Filastin and 4 other mints, are typically 25-27mm in diameter, with tall letters in the text. There is a third version (A-X705) that cites the caliphal heir al-Mansur in horizontal legends in the obverse & reverse centers, struck at Dimashq & Tarabulus (in Lebanon) AH382-386 (none on CoinArchives).

302. **FATIMID: al-'Aziz**, 975-996, AR 1/2 dirham (1.28g), al-Mahdiya, AH369, A-705, Nicol-826 (only 2 pieces reported), clear mint & date, rare date, F-VF, R \$150 - 200

303. **FATIMID: al-'Aziz**, 975-996, AR 1/2 dirham (1.22g), al-Mu'izziya, AH370, A-705, Nicol—, bold date, mint name somewhat crudely engraved, as on most of the al-Mu'izziya dirhams of al-Mu'izz; this is the first known example of the al-Mu'izziya mint for al-'Aziz; one small flan defect; unique and unpublished, VF, RRRR \$500 - 600

The mint called al-Mu'izziya was the city of Taormina on the east coast of Sicily, conquered by the Fatimid forces in AH351 (962 AD) and renamed "al-Mu'izziya" after the current Imam al-Mu'izz. The mint operated AH353-364, and now also reported for 370 under al-'Aziz.

307. **FATIMID: al-'Aziz**, 975-996, AR 1/2 dirham (1.27g), Atrabulus (Tripoli in Libya), AH372, A-705, Nicol—, fully legible mint & date, unrecorded by Nicol, VF, RR \$500 - 600

Extremely rare mint in silver, known for years AH367-373 and 380.

308. **FATIMID: al-'Aziz**, 975-996, AR 1/2 dirham (1.22g), Atrabulus (Tripoli in Libya), AH372, A-705, Nicol—, fully legible mint & date, unrecorded by Nicol, VF, RR \$500 - 600

Extremely rare mint in silver, known for years AH367-373 and 380.

There are three different silver subtypes for al-'Aziz at the Sijilmasa mint, all for half dirhams with some variable weights: (1) standard type with dot in center on obverse & reverse, as at most other mints (2) similar but with "adl" in the obverse center, "lillah" in the reverse center, only for Sijilmasa; and (3) with the full text "adl lillah" in both the obverse & reverse center, only for Sijilmasa. This piece is type #2.

This coin was issued during the brief but tumultuous period between the assassination of al-Âmir and the controversial succession of his cousin al-Hafiz. When al-Âmir was killed by Nizari agents (i.e. the Order of Assassins) in October 1130, he left behind a six-month-old son, al-Tayyib, without a vizier or regent. As the oldest surviving male of the dynasty, al-Hafiz (then known as 'Abd al-Majid) assumed the role of the regent and effectively became the head of state. But this was met with opposition from the army, which quickly placed him under arrest and installed Kutayfat as the new vizier. The infant al-Tayyib had disappeared amid the power struggle and was never heard from again. Kutayfat thus ruled in the name of a hidden imam by the name of Abu'l-Qasim Muhammad al-Muntazar bi-Amr Allah and issued coins in that name. His rule lasted barely over a year when members of al-Âmir's bodyguard assassinated him in December 1131. Al-Hafiz ascended the throne in the next month, thus bringing an end to the interregnum. However, his succession caused the Ismaili faith—already fractured by the Nizari schism—to further splinter. Those who recognize the legitimacy of al-Hafiz and his successors formed the now-extinct Hafizi sect; those who do not became the extent Tayyibi branch, which believes al-Tayyib went into seclusion (not unlike the final imam in Twelver Shia Islam) and is publicly represented by the Da'i al-Mutlaq ("absolute missionary").

Only one example of this mint of the Interregnum is filed on CoinArchives (listed twice: unsold in 2015, then sold later in 2015).

Wonderful obverse and weak reverse is almost normal for Fatimid glass weights. Perhaps the addition of a weak reverse was only to prevent attempts to reduce its weight and cheat the buyer.

But just 22 days later (June 19, 1481), he was defeated in battle by Bayezit II and fled to Cairo. It seems remarkable that his team was able to cut several dies and strike coins in his name within that short period.

The Zanj were a group of African Black slaves brought in to clear the salt deposits that were destroying the agricultural lands in southern Iraq. They were harshly treated, and finally rebelled against the Abbasid Caliphate in AH258, led by 'Ali b. Muhammad, whom they called their Imam as "al-Mahdi". They established their military base which they first called "askar al-imam", "the camp of the Imam", later replaced by the name al-Mukhtara, where coins were struck from about 259 until 266. The Abbasid forces were simultaneously involved in destroying several rebellions throughout their territories, but by AH268 were able to launch a decisive surge against the Zanj. They formed their own base, which they called Madinat al-Muwaffaqiya, and both gold and silver coins were struck there from 268 until 270. Both camps were abandoned after the Abbasid annihilated the Zanj rebellion early in the following year 271. The term Zanj survives in the name of an island now part of Tanzania, known as Zanzibar.

A Coin of Great Historical and Religious Significance!

561. **ASSASSINS AT ALAMUT (BATINID): al-Hasan b. 'Ali b. Sabbâh**, 1090-1124, AR dirham (2.46g), Jabal Karim, AH492, A-H1918, cf. Zeno-20235, citing the defeated and executed Fatimid rebel prince Nizar ibn al-Mustansir by his regnal name *al-mustafâ li-din Allah* at the top of obverse, the Shi'ite kalima in center, with mint/date formula in the margin // Qur'an Sura 112 in the center, *qul huwa* at the top, verse 9:33 in the margin, some peripheral weakness and fine scratches, one of only two examples known of this type, of great historical and religious significance! VF, **RRRR** \$15,000 - 20,000

Issued during the rule of Hasan al-Sabbah (Hasan-i Sabbah in Persian), this coin bears witness to the earliest years of the Nizari branch of Isma'ili Shia Islam. This sect is named after Nizar ibn al-Mustansir, the oldest son of the Fatimid caliph al-Mustansir. In the Nizari view, Nizar was denied his rightful place on the throne when his younger brother Ahmad became Caliph al-Musta'li through the machinations of the vizier al-Afdal. In response, Nizar rose in revolt in Alexandria in AH488 (1095 AD) and proclaimed his own caliphate under the name al-Mustafa li-din Allah; but he was defeated within a few months and executed in Cairo by immurement. His death sparked the bitter and permanent schism between the Nizari and the Musta'li sects, who maintain separate lineages of spiritual leaders to this day.

It is in this turbulent milieu that we encounter the Nizari religious and military leader, Hasan al-Sabbah. A native of Qom, he converted to Isma'ilism in his youth and became a da'i (missionary) at a time when Persia was under the rule of the Sunni Seljuq Empire. In AH483 (1090 AD), he surreptitiously entered and captured the fortress known as Alamut ("eagle's nest"), a remote castle built at 2,000m atop a steep mountain north of Qazwin. This marked the beginning of the Batinid dynasty, whose territories consisted solely of a series of isolated mountain strongholds. From Alamut, Hasan continued to support the Nizari cause for the rest of his life. His strongholds became the base for Nizari missionary activities and, more famously, an order of highly trained assassins. They claimed the lives of hundreds of prominent targets across the Middle East, including Abbasid and Fatimid caliphs, Seljuq viziers, and Crusader lords. This tactic struck fear into the hearts of rulers across the Middle East and ensured the survival of Hasan and his successors (known to European travelers as the Old Man of the Mountain) in a sea of numerically superior enemies. The Batinid dynasty finally met its end in AH654 (1256 AD) when Alamut was conquered by the Mongols under the command of Hulagu. The castle was partially dismantled and abandoned, where a substantial ruin remains to this day as a popular tourist site.

The only other example of this type was sold in Gorny & Mosch Auction 139, lot 3135 (2005), where the century word was off flan and therefore the date misinterpreted as 591 rather than 491. Both examples bear the cryptic mintname Jabal Karim ("noble mountain"), whose actual location is unclear.

562. **ASSASSINS AT ALAMUT (BATINID): Muhammad III**, 1221-1254, AV fractional dinar (1.54g), Kursi al-Daylam, AH(6)51, A-1920, legends *al-sultan al-a'zam 'alâ al-dunya wa'l-din // abu'l-muzaffar muhammad bin al-hasan*, with the date in words in the reverse margin, the mint in the obverse margin; small scratch on reverse, some weakness, but the central legends and both the mint & date are fully legible, VF \$4,000 - 5,000

There is only one example of this subtype filed on CoinArchives, but without the mint name, sold in our Auction 44, lot 636. The Batinid center was at a place called Alamut, known as Kursi al-Daylam on the coins ("throne of Daylam"), high in the Alborz mountains north of Qazwin.

563. **ASSASSINS AT ALAMUT (BATINID): Muhammad III**, 1221-1254, AE fals (2.00g), NM, ND, A-19211, obverse legend *al-mawla / al-a'zam // bird right*, formed out of the name letter for *muhammad bin al-hasan*; without any porosity; several examples of this remarkable type have already appeared at auction, but this piece is clearly of the finest quality, VF-XF, RRR \$1,000 - 1,500

564. **ASSASSINS AT ALAMUT (BATINID): Muhammad III**, 1221-1254, AE fals (1.87g), NM, ND, A-19211, obverse legend *al-mawla / al-a'zam // bird right*, formed out of the name letter for *muhammad bin al-hasan*; some light porosity on both sides, VF, RRR \$800 - 1,200

Alamut ("eagle's nest") was a remote castle built at 2,000m atop a steep mountain north of Qazwin in Iran. For 166 years, it was the center of an Isma'ili state that consisted of a series of discontinuous mountain strongholds in a sea of hostile territories. Most famously, it was where trained assassins were dispatched across the Middle East to carry out high-profile assassinations as a means of defense against its numerically superior enemies. They claimed the lives of hundreds of prominent targets, including several Abbasid and Fatimid caliphs, Seljuq sultans, and Crusader lords. Alamut was finally conquered by the Mongols and partially dismantled, where a substantial ruin remains to this day.

565. **ASSASSINS AT ALAMUT (BATINID): Muhammad III**, 1221-1254, AE fals (1.80g), NM, ND, A-19211, obverse legend *al-mawla / al-a'zam // bird right*, formed out of the name letter for *muhammad bin al-hasan*; almost no porosity; excellent obverse but weakly struck reverse, VF, RRR \$400 - 500

567. **ASSASSINS AT ALAMUT (BATINID): Rukn al-Din Khurshah b. Muhammad**, 1255-1256, AV dinar (4.38g), MM, DM, A-1921R, ruler cited as *al-sultan al-a'zam rukn al-dunya wa'l-din shah jahan khurshah bin muhammad*, with the Shi'ite kalima on the reverse, some weakness; this is the second known coin of the last Batinid ruler Khurshah (the first, struck from the same pair of dies, was sold in our Auction 51, lot 382, about the same grade and also about 15% flat strike), crude XF, RRRR \$3,000 - 4,000

Khurshah was the unfortunate final ruler of the Assassins, defeated by the Mongol forces led by Hulagu. Surprisingly, the Mongols agreed to bring Khurshah to the great Khan Möngke, but after a short time he was executed somewhere in the eastern Mongol territories, later in 1256.

568. **ATABEG OF KHUZESTAN: Husam al-Din Aydughdi**, ca. 1155-1175, AV dinar (2.45g), 'Askar, AH"503", A-1921K, citing the Seljuqs Arslan b. Tughril (AH556-571) and Abu Shuja' Muhammad b. Tughril (his dates uncertain), and the caliph al-Mustanjid (555-566); the date is probably an error for AH563, VF, RR \$300 - 400

CO. / Chinese characters *wah mak seung mu gong si*, numeral '10' at center // Chinese characters *mei yat hu* (One American Dime), VF \$100 - 200

A very rare example of an early Chinese token issued in Mexico in US Dollars. Northern Mexico had a sizable Chinese immigrant population at the turn of the 20th century, as Chinese men (with very few women) arrived as agricultural laborers and gradually developed into small business owners. Mexicali, in particular, had the largest Chinese community in all of Mexico and still retains a large Chinese presence in the city's Chinatown, La Chinesca.

The Guna (Kuna) people of Panama's San Blas Islands traditionally wear a small gold ring in their septum as part of their distinctive female attire, which also includes colorful Mola blouses, red headscarves, and beaded arm and leg bands. These gold nose rings are precious to the Guna and are worn to emphasize their beauty and cultural identity. Gold artifacts from the region often used a technique called 'tumbaga,' an alloy of gold and copper (and sometimes silver) that was surface-enriched to look like pure gold. It is likely the gold used in traditional Kuna ornaments was also an alloy of varying purity.

Regarding Lots 1109 to 1113

These miniature cannons were made of various metals including bronze, brass, copper, and iron, and were actually fired on important occasions such as weddings and the birth of children. Valued by weight at \$25-30 a picul, they were used extensively for a multitude of purposes, such as the barter of goods, bride price, payment of fines and the purchase of slaves (a slave being valued in piculs of brass guns). With the introduction of coins, these cannons gradually fell out of use. Many were also melted down during World War II, which accounts for their rarity today.

Cowrie shells, in Chinese called bèi, were used as money probably since around 2000 BC, from the Shang dynasty up through the Zhou dynasty. The cowries were an intelligent solution to make "small money" because they were collected in seas far south of China and only kings could afford to import them. Furthermore natural shells were impossible to counterfeit. Later imitations were made of various materials: bone, stone, jade, clay, bronze, and even silver and bronze with gold plating.

The "Bai Jin San Pin" (White metal three kinds), according to the Records of the Grand Historian, was introduced in 119 BC during the reign of Emperor Wu as both the Han-Xiongnu War and the territorial expansion of the Han Empire caused the imperial government to desperately increase their revenues. Among the reasons why the government started issuing this new type of currency was to remedy the inflation caused by the excessive issuance of bad money, but the Bai Jin San Pin would prove to be an insufficient solution. The Records of the Grand Historian claim

that the new "Bai Jin" (white metal) money was a mixture of silver and tin. The term San Pin refers to the fact that it was a series of three coins with different denominations: Dragon 3000 cash coins, Horse 500 cash coins and Tortoise 300 cash coins.

At that time 5000 Wu Zhu was equal to 1/2 cattie of gold. A cattie weighed about 120 grams, so these knives were valued at about 60 grams (2 ounces) of pure gold. We have not been able to find a relative value for gold in ancient China, but in the same time frame in the Roman Empire, two ounces of gold would have been at least a year's wages to an average citizen, thus the problem with this issue. It was fiat currency with a named value very high, but with little intrinsic value.

1293. **XIN: Wang Mang**, 7-23 AD, AE cash (1.8g), H-9.15, *yao quan yi shi* (baby coin [value] ten) in archaic script, cast 9-14 AD, graded 78(04) by GBCA Grading Company, artificial patina, VF-XF, RRR, ex Dr. Dirk L er Collection \$800 - 1,000

Wang Mang was a nephew of the Dowager Empress Wang, and during his time as her regent he usurped the throne, and founded the Xin Dynasty. He introduced a number of currency reforms which met with varying degrees of success.

This type was cast by the Emperor Gao Zong in the year 666. In an attempt to overcome a shortage of copper, one of the "qian feng" coins was to be equivalent to ten old coins, although its weight of 2.4 zhu was the same as a one cash coin. This led to extensive forgery, and the coin was withdrawn after a year.

Beiting Big Iron Money also known as "Xiliao Big Iron Money", is named because it is mainly unearthed near the site of the former city of Beiting in Jimusar County, Xinjiang, China. The script on this coin is possibly Tocharian. During the 6th to 9th centuries this script (derived from the Indo-European Brahmi alphabet) was in use at sites as Kucha, Turfan, and Karashar (Xinjiang). It is also possible that the script is Kidan (Qidan). More research on this rare type is needed which is tentatively assigned to the Western Liao. The ancient city of Beiting was the headquarters of the Beiting Protectorate during the 8th century. It was later known as Beshbaliq (Beshbaliq) and became one of the capitals of the Uyghur Khaganate and then the Kingdom of Qocho (Kara-Khoja), the later which became a Western Liao vassal state in 1128 during the reign of Bilge Tekin.

Possibly cast in Balasagun, which was an ancient Soghdian city in modern-day Kyrgyzstan, located in the Chuy Valley between Bishkek and Issyk-Kul Lake. Balasagun was the capital of the Qara Khitay state in 12th-13th Centuries. The Western Liao (1124-1218) dynasty, also known as Qara Khitay state, was founded by Yelü Dashi, a member of the Liao royal family, who led the remnants of the Liao Dynasty to Central Asia after fleeing from the Jurchen conquest of their homeland in the North and Northeast of modern-day China. It was usurped by the Naimans under Küchülük in 1211 and finally destroyed by the Mongol Empire in 1218.

Da Chao, meaning "Great Dynasty", was the Chinese name the Mongols used for themselves. According to Hartill, "This [silver] coin is alleged to have been cast by the legendary Genghis Khan at his capital at Karakorum." This would place the date about 50-60 years prior to the formal foundation of the Yuan dynasty in 1271. A more likely attribution by Belyaev & Sidorovich (2017) puts this series between 1251 and 1262 during the reign of Möngke Khan and the early years of Kublai Khan.

Palace cash may or may not be considered a type of amulet. These were made as New Year's gifts to people in the Imperial Palace, usually eunuchs and guards, who often hung the smaller ones below lamps and the larger ones below curtains. Hartill, in "Qing Cash" (Royal Numismatic Society, 2003), agrees they were handed

out as gifts in the Palace, but only upon the establishment of each new reign title, and were wrapped in red cloth.

In October 1886, the Bao Jin mint Tianjin was opened casting 1 qian weight coins. In 1888, Governor-general Li Hongzhang reported at length on the problems of striking cash using western machinery. (This had been bought from Greenwood and Batley of Leeds for 27,000 liang of silver.) Despite careful costing, it cost 2,237 cash to make 1,000 regulation coins. Permission was earnestly requested to discontinue use of the machinery. In 1896, the mint was reopen-ed with 12 furnaces producing 7 or 8 fen weight coins. It was closed in 1900.

This example is an obverse and reverse die match with PCGS graded example in Stack's Bowers Galleries Hong Kong Auction October 2023, Lot 40267.

There is no doubt that Muhammad Malla was killed in AH1278 (February 1862). Although it was formerly considered a rebel issue in or near Khoqand, Irpon Tukhtiev & Vladimir Nastich have proven that these coins were actually struck at Kashgar in Sinkiang by local rebels under the authority of Ya'qub Beg (their paper delivered at the 9th All-Russian Numismatic Conference in Veliki Novgorod in 2001). They bore no relationship to actual issues of Khoqand, and were replaced in AH1290 by issues in the name of the Ottoman sultan 'Abd al-'Aziz, correctly citing the mint of issue as Kashghar. It is possible that the dies were produced at Khoqand and shipped to Kashgar for Ya'qub Beg.

According to one source, all awards of this republic were made by Agzam Mirrakhimov, an ethnic Kyrgyz hereditary jeweler born in Ghulja in 1922. See stanradar.com/news/full/20964-nagrady-vostochno-turkestanskoj-republiki.html for more details.

1460. **SINKIANG: Second East Turkistan Republic**, enameled AR medal, 1947, 34mm, Artist's Medal, with original loop and green ribbon with silver bands and pin holder, large star and crescent in light blue field, the word *sen'etçi* ("artist") in between, circle on star, emblazoned with red lyre in blue and yellow field // machine-struck Uyghur legend in relief: *turkistan merkizi uyghur uyushma sanayi nepisiye medalidin berilgen 4 medal* ("the 4th medal awarded by the Turkistan Central Uyghur Fine Arts Union") followed by date, with punched issue number (19) below, one small enamel chip, ribbon with moderate fraying, hairlines on reverse, XF, RRRR \$7,000 - 10,000

This is the first example of the Artist's Medal of the Second East Turkistan Republic (ETR) to appear in the West and only one of two in existence that we are aware of. According to the consignor, this medal was acquired in the Ili area from the descendants of the late original recipient, who refused to sell it during his lifetime due to its significance and rarity, as evidenced by the very low issue number. The owner of the other medal (with the issue number 6) relates a similar story, as he acquired his example from a retired army musician who played the flute in the East Turkistan National Army before immigrating to Uzbekistan in the 1960's. According to the musician, his medal was one among eleven personally presented by Ehmetjan Qasimi (1914-1949), the Minister of Foreign Affairs, in Ghulja in 1947. The number 4 on the medal suggests

this award was created in 1944, the same year when the ETR was proclaimed. However, it is unclear if any similar medals were produced in these previous years. According to one source, all awards of the ETR were made by Agzam Mirrakhimov, an ethnic Kyrgyz hereditary jeweler born in Ghulja in 1922. See stanradar.com/news/full/20964-nagrady-vostochno-turkestanskoj-respubliki.html for more details.

According to one source, all awards of this republic were made by Agzam Mirrakhimov, an ethnic Kyrgyz hereditary jeweler born in Ghulja in 1922. The meaning of the red line is not clear, though the same source reports the theory that it was reserved for medical personnel. Besides the present example, we are only aware of one other with the red line. See stanradar.com/news/full/20964-nagrady-vostochno-turkestanskoj-republiki.html for more details.

It was centered on the city of Kashgar in what is today the Xinjiang Uyghur Autonomous Region in China. With the sacking of Kashgar in 1934 by Hui warlords nominally allied with the Kuomintang government in Nanjing, the First East Turkistan Republic was effectively eliminated.

End of Auction

TERMS OF SALE (AS OF JANUARY 2026)

1. Auction Basics. This is a public auction sale conducted by California bonded auctioneers, Stephen Album Rare Coins Inc. (hereinafter referred to as "Auctioneer"). Bidding in this Auction constitutes acceptance by you (the "Bidder") of all the Terms of Sale stated herein. Bidders may include consignors who may bid and purchase lots in the Auction consigned by the consignor or by other consignors pursuant to their consignment agreement. The Auctioneer reserves the right to include in any auction sale its own material. Bidder acknowledges and agrees that the Auctioneer may not be required to pay a Buyer's Premium, or other charges that other Bidders may be required to pay and may have access to information concerning the lots that is not otherwise available to the public. Any claimed conflict of interest or claimed competitive advantage resulting there from is expressly waived by all participants in the Auction. Lots may carry a Reserve. A Reserve is a confidential price or bid below which the Auctioneer will not sell an item or will re-purchase on behalf of the Consignor or for Stephen Album Rare Coins Inc. The Buyer is the Bidder who makes the highest bid accepted by the Auctioneer, and includes the principal of any Bidder acting as an agent.

2. Descriptions and Grading. Grading of rare coins is subjective and may differ among independent grading services and among numismatists, even though grading has a material effect on the value of the coins. Stephen Album Rare Coins Inc. is not responsible for the grades assigned by independent grading services, and makes no warranty or representation regarding such grades. Bidder further acknowledges and agrees that grades assigned by Stephen Album Rare Coins Inc. and lot descriptions are based solely upon an examination of the coins and are intended to note any perceived characteristics. Stephen Album Rare Coins Inc. does not warrant the accuracy of such grading or descriptions. All photographs in this catalog are of the actual items being sold but may not be the actual size or to scale.

3. The Bidding Process. The Auctioneer shall have the right to open or accept the bidding on any lot by placing a bid on behalf of the Consignor or their agent, a Bidder by mail, telephone, internet or fax, or any other participant in the Auction. Bids must be for an entire lot and each lot constitutes a separate sale. No lot will be broken up unless otherwise permitted by the Auctioneer. Lots will be sold in their numbered sequence unless Auctioneer directs otherwise. All material shall be sold in separate lots to the highest Bidder as determined by the Auctioneer. Auctioneer shall have the right in his or her sole and absolute discretion to accept or decline any bid, challenge any bid or bidding increment, to reduce any mail bid received, adjudicate all bidding disputes and to determine the prevailing bid. The Auctioneer shall have the right, but not the obligation, to rescind the acceptance of any bid and place the lot(s) for Auction again. Auctioneer's decision on all bidding disputes shall be binding and final. For the mail and internet Bidder's protection, no "unlimited" or "buy" bids will be accepted. When identical bids are received for a lot, preference is given to the first bid received as determined by the Auctioneer. A mail bid will take precedence over an identical floor bid; a Floor Bidder and Telephone Bidder must bid higher than the highest mail bid or pre-sale internet bid to be awarded any lot. Bids will not be accepted from persons under eighteen (18) years of age without a parent's written consent which acknowledges the Terms of Sale herein and agrees to be bound thereby on behalf of the underage Bidder. The auction sale is complete when the Auctioneer so announces it.

Absentee bids may be placed by fax, mail, email, or by telephone. Online bidding is also available on www.iCollector.com. Follow the link on our website, www.stevealbum.com in order to bid online. Your bids will be treated as a maximum bid. The winning bid will be one increment above the next highest bidder, or at the starting bid.

Stephen Album Rare Coins Inc. is not responsible for any errors in bidding. All Bidders should make certain to bid on the correct lot and that the bid is the bid intended. Once the hammer has fallen and the Auctioneer has announced the Buyer, the Buyer is unconditionally bound to pay for the lot, even if the Buyer made a mistake. Stephen Album Rare Coins Inc. reserves the right to withdraw any lot at any time, even after the hammer has fallen, until the Buyer has taken physical possession of the lot. No participant in the Auction shall have a right to claim any damages, including consequential damages if a lot is withdrawn, even if the withdrawal occurs after the Auction.

4. Buyer's Premiums and Payments. A Buyer's Premium of twenty percent (20.0%) or twenty dollars (\$20), whichever is greater, will be added to the hammer price for each lot to all successful bids. Accepted payments are by Visa, MasterCard, American Express, PayPal, cash, cashier's check, money order, approved personal check or bank wire transfer. If the purchaser pays by credit card (including credit-debit cards) or by PayPal, an additional service fee of four percent (4.0%) will be added. This service fee will apply to the hammer price, buyer's premium, shipping, and sales tax. A reacquisition charge may apply to Consignors pursuant to a separate agreement, which may be higher or lower than the Buyer's Premium. Payment is delinquent and in default if not received in full, in good funds, within fourteen (14) calendar days of the Auction (the "Default Date"), without exception, time being of the essence, unless otherwise agreed in writing prior to the Auction. Any bidder who does not pay within the standard deadline of fourteen (14) calendar days, regardless of any approval of alternative payment arrangements, may be considered a negligent payer and may be subject to increased scrutiny and additional requirements in order to participate in future auctions. If a credit card is provided before the sale, Stephen Album Rare Coins reserves the right to charge your credit card for the total of your auction purchases if payment has not been received within the fourteen (14) calendar days deadline. All auction sales are payable strictly in immediately available good U.S. funds, through a bank in the United States. Personal checks must clear our bank before lots are delivered. Bounced or returned checks are subject to a \$35 fee.

Payments by PayPal are restricted to a maximum of \$5,000 per client. Payments by credit card are restricted to a maximum of \$10,000 per invoice. If a credit card has been used to pay for one invoice from the auction, it may not be used to pay for another invoice in the auction, regardless of the total amount of either invoice. We reserve the right to modify these payment limits, and we reserve the right to refuse payment by credit card or PayPal at our discretion, in which case a bank wire, check, or cash equivalent will be required.

Please contact Stephen Album Rare Coins Inc. for wiring instructions. Please inform us after bank wire has been sent. Please be advised that payments coming by wire transfer usually only take a few days to arrive, but in rare cases they can take up to a few weeks to arrive due to US government regulating, resulting in a delay of shipment of your lots. Lots will not be shipped until your full payment has arrived in our bank account. There is a \$15 fee for all bank wire transfers.

Stephen Album Rare Coins Inc. reserves the right not to release lots for which funds have not yet been received in full. On any past due accounts, Stephen Album Rare Coins Inc. reserves the right, without notice, to extend credit and impose carrying charges of 1% per month. Buyers agree to pay reasonable attorney's fees and cost incurred to collect past due accounts. Buyers personally and unconditionally guarantee payment in full of all amounts owed to Stephen Album Rare Coins Inc. Any person submitting bids on behalf of a corporation or other entity, by making such bid, agrees to be personally liable for the payment of the purchase price and any related charges and the performance of all Buyer obligations under these Terms of Sale and Stephen Album Rare Coins Inc. reserves the right to require a written guarantee of such payments and obligations.

Lots are not available for pickup during the auction. Lots may be available for on-site pickup on the Monday following the sale if a formal request for pickup is provided by the Buyer before the auction, during the auction, or within 1 hour of the close of the final lot on the final day of the auction. We reserve the right to refuse this request for pickup, at our discretion. For on-site pickup, we will only accept cash or a bank transfer. If paying by bank transfer, the funds must reach our account before we will allow you to collect your lots.

5. Credit. Bidders who have not established credit with Stephen Album Rare Coins Inc. must furnish satisfactory credit references and/or deposit at least twenty-five percent (25%) of their total bids for that Auction session(s) or such other amount as Stephen Album Rare Coins Inc. may, in its sole and absolute discretion, require before any bids from such Bidder will be accepted. Deposits submitted will be applied to purchases. Any remaining deposits will be promptly refunded, upon clearance of funds.

6. Shipping and Insurance. It is the Buyer's responsibility to contact Stephen Album Rare Coins Inc. after the sale to make shipping and packaging arrangements. Due to the fragile nature of some lots, Stephen Album Rare Coins Inc. may elect not to assume responsibility for shipping or packing, or may charge additional shipping and handling. All state taxes, postage, shipping, handling, insurance costs, the Buyer's Premium, and any other fees required by law to be charged or collected will be added to the invoice for any lots invoiced to Buyer. Title and risk of loss pass to the Buyer at the destination upon tender of delivery. Acceptance of delivery constitutes acceptance of the purchased lots. Inspection of the purchased lots is not required for acceptance. Any and all claims based upon Buyer's failure to receive a purchased lot, Buyer's receipt of a lot in damaged condition, or otherwise related to delivery, must be received in writing by Stephen Album Rare Coins Inc. no later than thirty (30) days after payment. The failure to make a timely claim, time being of the essence, shall constitute a waiver of any such claim.

Delivery outside the USA will be by USPS registered mail, express mail or by FedEx and will include insurance on all shipments up to \$50,000. Buyers will be billed additional insurance charges on a shipment or combined shipments valued at above \$50,000. Any claims of loss or damage will only be paid by Stephen Album Rare Coins Inc. only after the insurers' investigation is complete. If the Buyer opts for another form of shipment other than the above, items will be shipped at their risk and they will assume all risk due to theft, damage or loss. A Buyer opt out of the Stephen Album Rare Coins Inc. standard shipping listed above must be in received in writing before shipment will be made.

Stephen Album Rare Coins Inc. cannot accept any responsibility whatsoever for customs duties charged by the country of destination or seizure of items by customs, domestic or foreign.

Buyers will be charged all applicable sales tax, including Buyers who pick up at this Auction or shipments to Buyers in California without a valid Resale Certificate which has been provided to the Auctioneer. Please note that the purchase of any coin or bullion lot(s) with a price, including the Buyer's Premium, in excess of Two Thousand Dollars (\$2,000) are exempt from California sales tax. On any tax not paid by Buyer that should have been paid, even if not collected by Stephen Album Rare Coins Inc. by mistake, error, negligence or gross negligence, Buyer remains liable for and agrees to promptly pay the same on demand together with any interest or penalty that may be assessed.

7. Financial Responsibility. In the event any applicable conditions of these Terms of Sale herein are not complied with by a Buyer or if the Buyer fails to make payment in full by the Default Date, Stephen Album Rare Coins Inc. reserves the right, in its sole discretion, in addition to all other remedies which it may have at law or in equity, to: (a) rescind the sale of that lot or any other lot or lots sold to the defaulting Buyer, retaining all payments made by Buyer as liquidated damages, it being recognized that actual damages may be speculative or difficult to compute, or (b) resell a portion or all of the lots held by Stephen Album Rare Coins Inc., in a commercially reasonable manner, which may include a public or private sale, in a quantity sufficient in the opinion of Stephen Album Rare Coins Inc. to satisfy the indebtedness, plus all accrued charges, and Stephen Album Rare Coins Inc. may charge a seller's commission that is commercially reasonable. More than one such sale may take place at the option of Stephen Album Rare Coins Inc. If the Auctioneer resells the lots, Buyer agrees to pay for the reasonable cost of such sale, together with any incidental costs of sale, including reasonable attorney's fees and costs, cataloging and any other reasonable charges. Notice of the sale shall be by U.S.P.S. Certified Mail, Return Receipt Requested to the address utilized on the Bid Sheet, Auction Consignment and Security Agreement or other last known address by Stephen Album Rare Coins Inc. The proceeds shall be applied first to the satisfaction of any damages occasioned by Buyer's breach, then to any other indebtedness owed to Stephen Album Rare Coins Inc., including without limitation, commissions, handling charges, carrying charges, the expenses of both sales, reasonable attorneys' fees, costs, collection agency fees and costs and any other costs or expenses incurred. Buyer shall also be liable to Stephen Album Rare Coins Inc. for any deficiency if the proceeds of such sale or sales are insufficient to cover such amounts.

Buyer grants to Stephen Album Rare Coins Inc., or assignees, the right to offset any sums due, or fund to be due to Stephen Album Rare Coins Inc., and to make such offset from any past, current, or future consignment,

or purchases that are in the possession or control of the Auctioneer or from any sums due to Buyer by Stephen Album Rare Coins Inc., its affiliates and assignees. In addition, defaulting Buyers will be deemed to have granted to Stephen Album Rare Coins Inc., or its assignees, a security interest in: (x) the purchased lots and their proceeds, and (y) such sums or other items and their proceeds, in the possession of Stephen Album Rare Coins Inc., its affiliates or assignees, to secure all indebtedness due to Stephen Album Rare Coins Inc., plus all accrued expenses, carrying charges, attorney fees, and costs, until the indebtedness is paid in full. Buyer grants Stephen Album Rare Coins Inc. the right to file a UCC-1 financing statement for such items, and to assign such interest to any affiliated or related company or any third party deemed appropriate by Stephen Album Rare Coins Inc. If the auction invoice is not paid for in full by the Default Date, a carrying charge of one percent (1%) per month may be imposed on the unpaid amount until it is paid in full. In the event this interest rate exceeds interest permitted by law, the same shall be adjusted to the maximum rate permitted by law, and any amount paid in excess thereof shall be allocated to principal. Buyer agrees to pay all reasonable attorney's fees, court costs and other collection costs incurred by Stephen Album Rare Coins Inc. or any affiliated or related company to collect past due invoices or to interpret or enforce the terms hereof or in any action or proceeding arising out of or related to the Auction. Stephen Album Rare Coins Inc. reserves the right to assign its interest to any third party. To the extent that the Buyer for any lot consists of more than one person or entity, each such person or entity is jointly and severally liable for all obligations of the Buyer, regardless of the title or capacity of such person or entity. These Terms and Conditions of Auction and the auction shall be construed and enforced in accordance with, and governed by, the laws of the State of California, regardless of the location of the Auction. Any dispute arising out of or related to these Terms of Sale, the Auction or any lot, with the sole exception of actions by Stephen Album Rare Coins Inc. to collect amounts owed to it and other damages, shall be submitted to binding arbitration pursuant to the rules of the International Association of Professional Numismatists (I.A.P.N.). Bidder acknowledges and agrees that the competent courts of the State of California shall have exclusive jurisdiction, subject to the requirement to arbitrate, over any dispute(s) arising hereunder, regardless of any party's current or future residence or domicile. Bidder further agrees that venue of the arbitration proceeding shall be in Sonoma County, California; and any court proceeding shall be in the Sonoma County Superior Court, in the State of California. Bidder agrees that any arbitration or legal action with respect to this Auction is barred unless commenced within one (1) year of the date of this Auction. These Terms of Sale and the information on our website constitute the entire agreement between the parties hereto on the subject matter hereof and supersede all other agreements, understandings, warranties and representations concerning the subject matter hereof. If any section of these Terms of Auction or any term or provision of any section is held to be invalid, void, or unenforceable by any court of competent jurisdiction,

the remaining sections or terms and provisions of a section shall continue in full force and effect without being impaired or invalidated in any way. Stephen Album Rare Coins Inc. may at its sole and absolute discretion, make loans or advances to Consignors and/or Bidders.

12. Special Services. If you wish to limit your total expenditures, please fill in the maximum amount you wish to spend on your bid sheet. This is a personal service and a Stephen Album Rare Coins Inc. representative will personally attend to your bid sheet by bidding from the auction book, buying lots for your account until your authorized expenditure is reached. While we will do our best in your behalf, due to the speed of the auction sale and the sometimes crowded conditions, we cannot be responsible for failure to execute such a bid properly.

13. Floor Bidding. We reserve the right to refuse to allow a person to attend the live floor bidding session of the sale, and also reserve the right to eject disruptive or non-compliant bidders from the floor session, at the discretion of the auctioneer. Photography is prohibited for all attendees. Smoking within the building is prohibited for all attendees. Lot pickup for items won by bidders who bid live from the auction floor will be allowed no sooner than 24 hours after the final lot is hammered on the day that the lots were won. This pickup timeline may be altered at the discretion of the auctioneer.

Stephen Album Rare Coins Inc. auctions are not approval sales. Bidding in this auction sale constitutes unconditional acceptance by the Bidder of the foregoing terms of sale.
